November 7, 2014

Re. Simone Clarke (Chong)

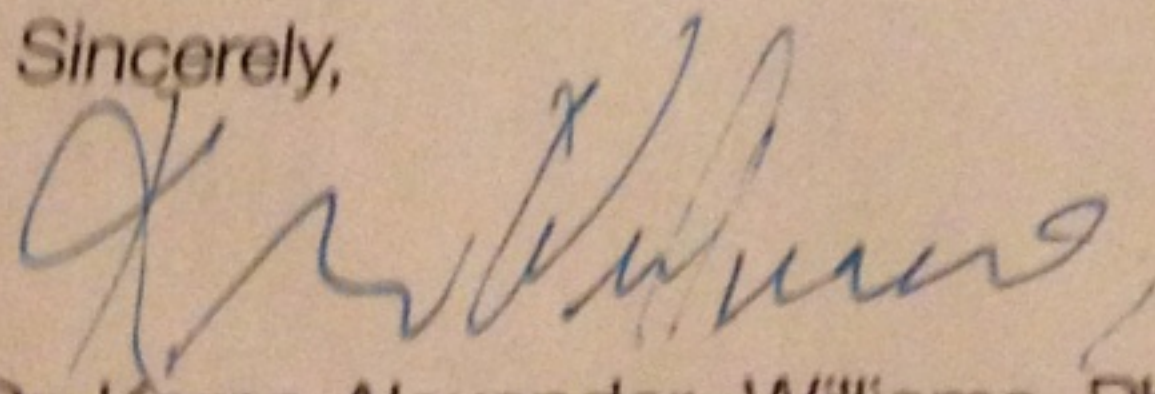

To Whom it May Concern,

This letter is to verify that Ms. Simone Ann Clarke (Chong) suffered a Transient ischaemic attack (TIA, Mini-stroke) on November 7, 2014.

This is a neurological event with the signs and symptoms of a stroke. Physical and mental symptoms associated with a TIA disappear within a short period of time.

She has outlined her duties and responsibilities as a Teacher's Aide, and is capable of meeting her duties without difficulty.

Sincerely,

Dr. Karen Alexander-Williams, Ph. D.,
