

# Optimization and Completion Design of Unconventional Resource Plays

Hasan Shojaei, Ph.D.

Senior Reservoir Engineer at MicroSeismic, Inc

---

As the complexity of extracting oil and gas increases, optimizing wellbore spacing and completion design is a key step towards successful development of unconventional resource plays.

UHSPE is proud to present this wonderful opportunity to learn about some of the latest technologies from MicroSeismic.

When: **Feb.15th, 4:00 pm-5:30pm**

Where: **ERP Building 9, Room 124**

Refreshment will be provided
