What is Imagebin?

Imagebin is a place you can simply upload an image to. It lets you upload your image, then provides a convenient URL you can share with whomever you please, through e-mail, social networking or even in person.

Simply select an image to upload, select the *Upload to Imagebin* button, and it will return a URL you can share.

Electronic Lock Factory

YLI is committed to lock design, development, manufacture with CE, UL, MA, ISO9001: 2008

Upload an Image

You are not logged in. You will not be able to manage the uploaded image.

Image File: Файл не выбран.
Select the image file to upload.

Title:
A title will help people find your images and for browsing.

Description:
Feel free to describe the image. The description will be shown above the image when viewing it.

Tags:
You may tag this image. Use commas to separate tags.

Category:
Please provide a simple category for this image. Adult images will be hidden from general public browsing.

Private:
By default, uploaded images are openly shared on the website. Marking it as private here will remove it from browsing entirely. See below to password protect your image.

What are the rules?

You are presently anonymous. Perhaps you want to [sign in to imagebin.ca](#). Registered users have more [relaxed rules and more features](#).

Basically, in trying to keep this service free for general use, there are a few limitations.

- All files must be less than 15 megabytes in size.
- Images may be removed at anytime for technical or discretionary reasons.

LE

Statistics

Imagebin has a total of 723,676 images with a total of 179,270 gigabytes used served 56,612,789 times. The average image size is 0.3 megabytes.

Donations

Imagebin is a fairly expensive service to keep running, so if you enjoy using it, please consider donating.
